Joe,

We thank you very much for helping us through the process with our fire claim. We finally finalized the claim and closed on the new house this last Friday. Attached are a few pictures.

The rental property that caught fire was donated to Habitat for Humanity and they are tearing down the house to rebuild at their expense since they did not have to purchase the property. I am glad how this worked out. We will even have a nice tax write off.

Win Win!

Thank you Thank you!!
